Wrap Up Salford

Dear Parents,

Four years ago we joined a city-wide 'Wrap Up' project to help keep Greater Manchester warm in winter. A project that distributed thousands of coats to people in need within the Salford area and helped kick-start relationships between the vulnerable and the charities that can support them by providing year-round services and support.

This year the Rotary Clubs of Salford and Worsley are once again asking for our help to collect winter coats that will provide warmth to the homeless, those in need and families in crisis. If you are able to help, please bring your thick, warm and clean winter coats* into school between now and **Thursday 19th October** and deposit in the collection box at reception. Any size, style or colour of men's, women's and children's coats will be very much appreciated (excludes school uniforms).

All donations will be sorted and delivered to nominated charity partners for distribution to people in crisis in time for winter.

Thank you, your help is very much appreciated.

Caroline Saunders

Marketing & Development Manager

** Whilst the charity appreciates the good intentions behind the donation of other items, **only coats are being collected**. These should be in a condition that you would be happy to receive – clean, intact linings, zips etc.*
