From childhood upwards we all need to have self-confidence and emotional intelligence to convey our thoughts and feelings, express our opinions politely and confidently, to have a voice in the classroom or workplace, and know how to establish positive relationships with other people. These life skills give us the freedom to develop our full potential and have self confidence in our own abilities. At Drama Kids we recognise the benefits of drama and role-play in building self-confidence, developing communications skills and encouraging social interaction.
